Environmental Policy of FPHU Natura Zenon Mizerek

Our Environmental Policy confirms our commitment to environmental care. Our goal is to offer eco-friendly, customized cotton packaging for wholesale clients while respecting the environment both locally and globally.

Our policy is based on the following commitments:

1. **Environmental Protection and Pollution Prevention:** We conduct our business in a way that ensures environmental protection and prevents pollution. We comply with legal requirements and adhere to environmental standards and regulations.
2. **Efficient Resource Use:** We use electricity, water, and paper efficiently. By using 100% renewable energy, we reduce CO2 emissions to 52,561 kg annually.
3. **Carbon Footprint Reduction:** Through the use of renewable energy and local production of cotton packaging, we help our clients reduce their carbon footprint and shorten supply chains.
4. **Waste Management:** We systematically segregate waste in every production department and monitor the amounts produced.
5. **Environmental Education and Awareness:** We educate our employees about our environmental policy, their responsibilities, waste segregation, and pro-ecological attitudes.
6. **Continuous Improvement:** We monitor and analyse our environmental impact, continuously improving our technological processes, investments, equipment modernization, and management systems.
7. **Sustainable Development:** We support sustainable development by promoting responsible consumption and production and striving for neutrality.
8. **Stakeholder Collaboration:** We engage in dialogue with our stakeholders to jointly achieve sustainable development goals.
9. **Ecological Innovations:** We invest in innovations and technologies that contribute to environmental protection and sustainable development.
10. **Recycled Fabrics:** We offer our clients fabrics made from recycled cotton, supporting water conservation and reducing the demand for new raw materials.

The owner of FPHU Natura, Zenon Mizerek, commits to providing the necessary resources and means to implement and maintain this Environmental Policy, while also ensuring that the company's employees are familiar with the environmental policy to the extent that enables them to consciously participate in achieving its goals and principles.
